SPOTLIGHT ON SAFEGUARDING

This is an excellent organisation for parents/carer to help support their children with mental health, feelings and behaviour.

YOUNG MINDS

fighting for young people's mental health

<https://www.youngminds.org.uk/parentguide/>

Young people's mental health can be a challenge. It can help them learn to be independent, it can also be really hard work. It can feel especially hard if your child's mood and behaviour seem different and you're not sure why, or what you can do to help. But you are not alone.

We have lots of practical advice and tips on supporting your child - from how to encourage your child to open up about their feelings to dealing with mental health services. No matter what you and your child are going through, things can get better. We also have our Parents Helpline who can provide advice and support if you're worried about a child or young person.

Our A-Z guide gives you advice on how to help your child with their feelings and behaviour, as well as mental health conditions and life events. We'll also show you where you can get help.
